

Creates Beautiful Stitches

Fusion of function and strength.

Reinforced plastic bobbin made in Japan with excellent durability and strength.

Plastic bobbin now released from JUKI.
Effective in reduction of running idle
due to its light weight.

✓JUKI's new reinforced plastic bobbin will help you to solve the problem.

(It takes time to adjust the thread tension.) (Irregular stitches on light-weight materials.)

(Stitching is unstable at high and low speeds.) (Loose stitches at the start of sewing.)

| Reduction of weight |

Since the plastic bobbin is lighter than aluminum and iron, the thread tension is stable at a high level. Furthermore, it realizes beautiful stitching.

| High durability |

Since there is almost no rubbing inside the bobbin case, it is as durable as aluminum and iron.

| Reduction of running idle |

Thread bending that occurs after intermittent stitching or thread trimming is reduced. Needle thread tension at the start of sewing is reduced, and stitching is more stable. It also reduces the effect of the remaining bobbin thread amount on the thread tension.

Amount of bending thread inside the bobbin case after thread trimming

Reduction of needle thread tension

[Model used: LZ series (3,000rpm) / thread used: resilon thread #60 / bobbin thread tension: 4g]
* Average value displayed.

| Applicable model | Set part No. (10 pcs.) Blue | Set part No. (10 pcs.) Red | Set part No. (10 pcs.) Yellow |
|---------------------------------------|--------------------------------|-------------------------------|----------------------------------|
| For lockstitching | 40244783 | 40245124 | 40245136 |
| For 2-fold hook lockstitching | 40244784 | 40245125 | 40245137 |
| For 2-needle | 40244785 | 40245126 | 40245138 |
| For Zigzag/Button hole | 40244786 | 40245127 | 40245139 |
| For bar tacking | 40244787 | 40245128 | 40245140 |
| For computer-controlled cycle machine | 40244788 | 40245129 | 40245141 |

(Pack of 10 bobbins)
