#### **Specifications**

Model Item	PLK-J4040RH
Stitching style	Single-needle lockstitch
Hook	6-fold rotary for heavy
Needle	DD×1 #26
Sewing area (X x Y) (mm)	400 x 400
Max. speed (Note 1) (rpm)	M3 motion: 1000
Feeding system	M3 motion: Intermittent and/or continuous
Stitch length (mm)	0.1 to 20.0 (min. resolution 0.1)
Max. stitches	20 000 stitches/pattern
Max. patterns (Note 2)	9 000
Memory medium	USB flash memory
Axis control	7 axis : Head & Hook & presser foot & thread tension & trimmer & X & Y
Upper shaft motor	Mitsubishi Electric 750W direct servo motor
Lower shaft motor	Mitsubishi Electric 400W direct servo motor
Work holder	Jig-eject system
Needle bar stroke (mm)	51
Thread take up lever stroke (mm)	100
Presser foot drive	Direct drive by stepping motor
Presser foot lift stroke	Max. 30.0 (step: 0.1)
Presser foot stroke	Digital adjustment stroke: 0.0 to 10.0
Upper thread tensioner	Manual or digital switchover method
	Input data save function provided
	Stitching direction-compatible automatic adjustment function provided
Trim knife type	Horizontal type by stepping motor
Oil lubrication	Spray method: Spray time adjustment
Operation panel	6.5-inch color LCD touch panel with USB port
External device Input / Output	Total: 27 NPN + 2 Analogic (Free : 21 NPN / 2 Analogic)
Interface	Ethernet (Note 3) (CC-Link IE Field Basic compatible), USB communication
Barcode reader	USB barcode reader (HID) supported
Detection: Thread break, skipped stitch	Option
Stitch alert	Standard equipment
Programmable controller	Dual original step sequence function
Outline dimensions (mm) (WxDxH)	1350 x 1570 x 1205
Mass (kg)	450
Power supply	200 to 240V single-phase/three-phase

<sup>\*1:</sup>Sewing speed may be limited by the type of sewing material, presser weight and stitch length, etc.

<sup>\*3:</sup>Ethernet is a trademark of Fuji Xerox Co., Ltd.

▲ Safety Precaution

To ensure safe and proper use of the products in this document, please make sure to read the relevant instruction manuals and technical notes before use.

## MITSUBISHI ELECTRIC EUROPE B.V. - French Branch

2, rue de l'Union – 92565 Rueil-Malmaison Cedex - France http://www.ism.mitsubishielectric.fr/en

<sup>\*2:</sup>The max. patterns may be limited depending on the number of stitches of each pattern in the memory.

# **Everything to improve usability**

#### Optimizes thread tightness in all stitching directions **Digital tension function**

The sewing machine selects the optimum tension according to the stitching pattern.

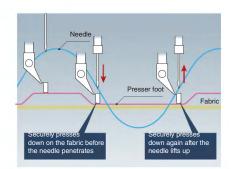

New arm-shaped, glass epoxy slide plate

#### Independent presser foot motion

The fabric pressing time and timing can be adjusted digitally to prevent the fabric from lifting up. This contributes to stable needle location and reduced stitch skipping.

The bobbin can be replaced from the top

Easy to see operations and simple 6.5-inch color operation panel

#### **M3 Motion : Mix between intermitent** and continuous system motion

This unique feature reduces vibration and noise to optimize the sewing.

#### **E-stitch**: Prevention of skipped stitches at start-up

Perfect thread maintain at start-up.

#### Modular concept.

4 different hooks available for the highest flexibility and to meet all your specific needs:

Shuttle / Rotary / Rotary x3 / Rotary Heavy.

## Sewing machines equipped with "Pokayoke" to prevent human error

Materials thickness confirmation function ensures proper material layers before sewing starts.

#### **Quality assurance from quality control**

Equipped with the seam error detection function The history and condition of every stitch can be transferred to storage device for future traceability.

#### **Next-generation IT factory management**

Integrated FA-IT solutions driven by Mitsubishi Electric

e-F@ctory enables visualization of operating status through enhanced communication functions, contributing to flexible factory management. The best partner for sewing machines and other Mitsubishi Electric FA
